By initialing each item and by signing below, I acknowledge all of the following:

Anjing Banfa is an extremely violent martial art.

Initials: _____

Learning Anjing Banfa can be, though usually isn't, a very dangerous activity. Aside from bumps and bruises and minor cuts (which are to be expected) more serious injuries can occur. Injuries can include but are not limited to: broken bones, blunt trauma, torn muscles, bruises or hematoma's, dislocations, cuts, scrapes, eye damage, concussions, or internal injuries which require surgery can happen. It is even possible, though extremely unlikely, that a student (or the teacher!) could die during this training.

I recognize that part of studying Anjing Banfa is the testing process. I understand that I am studying Anjing Banfa with the express intent to undergo the testing process. Testing in Anjing Banfa can involve several different types of strenuous and dangerous activities and skills testing. The skills that are tested involve combat and survival techniques. The testing can, but does not necessarily, entail some or all of the following activities: water activities, weapon usage, height and falling techniques, activities involving animals, weather issues, and similar activities. This is not an exhaustive list, and other similar activities frequently occur during testing. By initialing here and signing below, I expressly assume all of the liabilities for any and all injuries and illnesses that occur related to testing.

Initials: _____

I recognize that there is more to learning Anjing Banfa than what goes on in the confines of the class or testing situation. Such activities can include, but are not limited to, other physical, potentially strenuous, activities that occur either at Master Brusso's home or elsewhere.

Initials: _____

I understand that part of studying Anjing Banfa is not being stupid. Being stupid includes, but is not limited to, engaging in activities that you know you should not be engaging in. What this means is that, if you are injured, ill, or for some reason should not be participating in class or other Anjing Banfa activities, it is your responsibility to advise Master Brusso or whoever is teaching the class or leading the activity. When in doubt as to whether you should engage in any Anjing Banfa related activities, consult Master Brusso or whoever is teaching the class or leading the activity, or just don't participate in the activity.

Initials: _____

I assume all of the risks associated with learning Anjing Banfa and participating in Anjing Banfa classes, tests, and all related exercises and activities, regardless of whether they take place within the confines of an organized class or not.
